New Leaf
PREP ACADEMY

Hello Families,

Thank you for your patience as we navigate the process of opening our new school! We have not yet broken ground on our school property, and are currently working through the permitting process. We have a tentative school completion date of January 2022 and will be leasing space to start out the 2021/2022 school year until our school build is complete. Our leased school building will be no more than 7 minutes from our current location and Highway 41 & 29. Additional information on our leased location will become available prior to enrolling students.

We are still on track to have our Charter contract complete in May so we can begin formally enrolling students! We have exceeded application submissions over the seats available in grades K-4th so we will be holding a lottery to enroll in these grades. The number of application submissions are nearing the seats available in grades 5-8 as well. We are recommending that families have an alternate option in place for their child's education in case they are not enrolled.

We will be enrolling from the top-down, meaning that we will be starting at 8th grade and working our way down to Kindergarten. Siblings hold priority, meaning that if you have an 8th-grade student who is enrolled all of their siblings will be pulled out of the lottery and also enrolled into their proper grade level, securing their seats.

School Supply Lists, Nutrition Program, and school logistics information will be released as soon as possible, prior to enrollment, so that parents can make a fully informed decision on their child's educational future.

If you are no longer interested in enrolling your child at New Leaf Prep Academy please respond to this email with their name and your reasoning so that we can remove them from our application list, and your family from our emailing list.

We are excited to embark on this revolutionary journey with your family and look forward to communicating updates as things are finalized.

Thank you,
Paige Christoff
